

## United to make student life better

The Presidents of the Bendigo Student Association, La Trobe Student Union and Wodonga Student Association are excited to announce that as of 1st January 2021, our student organisations will be joining to form one new student representative body to support and represent students from across all La Trobe University campuses in Victoria.

This decision brings fundamental change to the way in which we have operated. We are excited that these changes shall provide opportunities to create a culture of enhanced collaboration, to better facilitate engagement, innovation, student success and satisfaction, strengthening our invaluable contribution to our University.

Students and their voice are integral to the successful formation of our new student representative body. As the heart and soul of student life, we value your input and as such student forums will be held on each of the six campuses throughout March 2020 with dates and times listed below.

We invite and welcome students to take part in these forums so that we may build an exceptional, vibrant, passionate and dedicated representative body that reflect the needs of students. We look forward to sharing our progress and the exciting times ahead. This is not the closing of our book; it is a new chapter in our story.
